

PRODUCT DETAIL SHEET

Allied Bolt Products LLC

1/8" X 2-1/2" B 8 ANCHOR WALL SCREW

#305

- Used for making lightweight attachments (under 40 lbs.) such as terminals and back-plates of wall phones to drywall.
- Fiber washer prevents anchor from turning while tightening screw.
- Manufactured from AISI 1008 steel.
- Wall thickness ranges from 1-1/4" to 1-1/2".
- Recommended hole size 5/16".
- Once anchor is set, screw may be removed as often as necessary without effecting anchor.
- Anchor wall screws are comprised of expansion sleeve and a machine screw.
- The sleeve is formed from steel with a flanged collar at one end and a threaded section at the working end.
- Flanged collar has two prongs which grip surface of base material to prevent anchor from spinning during installation.
- As screw is tightened, the screw pulls against threaded section causing legs to expand and draw up tightly against the inside wall.
- For use in plywood, hollow tile, plaster, and drywall.
- Zinc-plated to meet ASTM specification B633.
