

PRODUCT DETAIL SHEET

4" X 4" TAPERED CARBIDE CORE BIT

#590080

- Use with Spline or SDS Max rotary hammer machines to drill large diameter entry holes for pipe or conduit in floors or walls.
- The Bits enable a hammer drill or rotary drill to produce holes which are larger than the tool rating by cutting the only circumference of the hole.
- Core bits are machined from a single piece of forged Steel to withstand continuous hammering and sustain long life.
- The top or head of the bit is crowned to direct the hammering energy through the outside wall and into the cutting teeth.
- The carbide cutting tips are made with a slightly negative cutting angle for use with rotary hammer machines.
